## Product characteristics

- Alexa built - in device : it is possible to interact with Alexa with dedicated capacitive keys or with the voice to activate video door entry functions, smart home functions, routines, reminders etc.
- 5" vertical touch display with possibility to customize favorites, see notification and check answering machine
- Smart security products natively integrated. Home+Security App to manage the security and door entry system remotely
- The indoor unit also allows to create and manage both BUS SCS and Zigbee Smart Home solutions without adding dedicated gateways
- LINEA 3000 entry panel in black matte finishing for one or two calls.

## The product's benefits

### Installation

- Traditional 2-WIRES installation and connectivity via Wi-Fi or Ethernet (with dedicated accessory BT-344844). The configuration is possible through device menu or using the configurators. Wall installation with bracket included

### Usage

- Alexa built-in voice service to manage your home and daily activities; intuitive vertical 5" touch display and Home+Security App to manage the security devices and door entry system.

### Avantages

- Alexa built-in gives the possibility to exploit all Alexa functions and activate video door entry functions, smart home functions, routines, reminders using the voice
- Possibility to integrate Netatmo security devices such as smart camera, window and door sensor, smart siren and smoke sensor. From the H+S App is possible to manage all the door entry and the smart security functions.
- New and modern design with vertical 5" touch display to access the notification list, the favorite video door entry, security and smart home commands. Entry panel with elegant black matte finishing and one or two calls.
